An informal subscription drive took place last night at the Jefferson Hotel, the purpose of the association taking part with much hearty good fellowship and good feeling. Many informal speeches were made.

## ANNUAL BANQUET OF PIANO MAKERS

Sir Herbert Marshall Speaks of Blessings of Protective Tariff.

Farthest purpose to make the organization a power in public affairs and for what its members believe to be for the best interests of the nation was the keynote of the speeches made last night at the annual dinner of the National Piano Manufacturers' Association of America at the Jefferson Hotel. This was in pursuance of the policy urged by the retiring president in his annual report of endorsement of ship subsidy and inland waterways.

"You people," exclaimed Sir Herbert Marshall, president of the Piano Manufacturers' Association of Great Britain, "have no competition, no competition at all. Why?" he said, waving his long arms in his earnestness. "20,000 German-made pianos are poured into England every year to compete with us, for we have not the blessings of a protective tariff."

Sir Herbert, it should be added, is one of the few leading Englishmen who favor the protective principle. During the recent campaign he was a candidate for Parliament on the Joseph Chamberlain platform, making 104 speeches in twenty days. He was defeated.

The dinner lasted for nearly five hours, the last three being given over to the feast of reason. The first address was by Edward Payson, of Boston, responding to the toast, "England," in compliment to the distinguished guest. Mr. Payson spoke in eulogistic terms of the late King, Sir Edward, in responding, expressed the grief of the English people at their loss, but touched on the future. He is much pleased with the personal accomplishments and earnest purpose of George V.

Colonel E. S. Conway, of Chicago; Edward Droop, of Washington, president of the National Association of Piano Dealers; A. R. Hall, president of the National Association of Piano Travelers; William Lincoln Bush, of Chicago; Frank H. Lee, of Cincinnati; and H. W. Lawrence, of New York, were the other speakers. The entire affair was informal, the speakers being called upon for the most part by their friends in the assembly.

## ADVISES AGAINST USE OF TOBACCO

(Continued From First Page.)

Instead of seven, but the original resolution was adopted. The committee on itinerancy reported nonconcurrence in the petition recommending that no bishop be invested with the power to appoint a candidate to any charge during an annual conference without the consent of all the bishops electing him.

A minority report was submitted, recommending that the presiding bishop of every annual conference announce no list of appointments without first having made known every appointment to his cabinet. Both requests were referred to the calendar to be considered later.

The recommendation of the minority report is in the direction of limiting the power of the episcopacy.

**Change of Name.**  
The committee on itinerancy reported concurrence in the petition presented by the East, Columbia, Louisiana, the Western North Carolina, the Oklahoma, the Little Rock, the Los Angeles, the Colorado, the Pacific conferences, and from several individuals for the name of the church to be changed from the Methodist Episcopal Church, South, to the Methodist Church.

A minority report was submitted recommending that the change in the name be made. These reports were placed on the agenda and when they were taken up for discussion they will no doubt bring forth a discussion of considerable interest. The desire is growing, especially in the West, for the name of the church to be changed in such a manner as to indicate the idea of section or territory included in the church. It is predicted that the consideration of these reports will precipitate the conference into another war of words and arguments. The association around the present name is strong, and there will be strong opposition to the making of any change in it at this time from the older conferences, those in the South and the Southwest.

Among the visitors introduced today was Bishop John H. Vincent, of the Methodist Episcopal Church, who remarked that the time would come some time when the Methodists of America would be one.

The conference heard to-day the fraternal address from Rev. M. Hori, of the United Methodist Church, of Japan; also an address from Bishop J. Honda, of that church.

**To Unify Missionary Work.**  
One of the most important reports adopted to-day was that of the committee on missions, by which all of the home and foreign missions of the church, the women's work included, will be conducted under one board. This unifying the work. Of the thirty members who will constitute the new board ten will be women and a woman will be assistant secretary.

The Laymen's Missionary Movement held a mass-meeting, at which time a number of interesting addresses were delivered.

The indications now are that Rev. James F. Cannon, of the Virginia Conference, and Rev. Walter R. Lambuth, missionary secretary, are growing rapidly in chances for the episcopacy and are spoken of along with Rev. Collins Denny, who is receiving the most prominent mention, and Rev. J. C. Kirtland, who is also one of the first mentioned for the office.

**No Verdict Reached.**  
Kansas City, Mo., May 13.—After the Hyde murder jury had deliberated for one hour and forty minutes to-night without reaching a verdict, the jury members were sent to their hotel for the night. They will resume deliberations at 9 o'clock to-morrow morning.

## SOLDIERS HOPING FOR NEW ARMORY

First Regiment Sanguine of Success—Battalion Drill Tuesday Night.

Full confidence is expressed by the officers and men of the First Virginia Regiment, the Council of Richmond will give them a larger and better armory. The matter is with the Grounds and Buildings Committee, but it is believed that practically no member of the Council is opposed to giving this organization a home which will be both safe and convenient.

Plans are now being drawn looking to an extension of the building by the purchase of property in the rear. The First Battalion has had pretty hard lines for some time. An excavation on an adjoining lot first put the members out of business, and they moved to other quarters. When this was supposed to be over, Inspector Beck found that the building was unsafe and its use was prohibited for drilling purposes, although the men may go in for their armory drills as now being held in the streets, but the coming of cold weather it will be necessary to make some other arrangement.

It is not expected that a rebuilt armory can be had at the drop of a hat, but the gentlemen are sanguine that within perhaps six or eight months they will have the problem solved by the City Council in a way that will be gratifying to the organization.

## USE HIGH SCHOOL HALL

Commencement of University College of Medicine Tuesday Night.

The commencement exercises of the University College of Medicine, scheduled for Tuesday night, will take place in the auditorium of the John Marshall High School, instead of the Academy of Music, as announced in the invitations which have been issued. The college authorities understood that a reservation had been made for them at the theatre on the night in question, but the theatre people did not see it that way. To avoid embarrassment, the City School Board stepped in and offered the auditorium of the handsome new high school, which has a seating capacity of most as great as that of the Academy.

The annual sermon to the University College will be delivered by Rev. J. N. Latham, D. D., at Centenary Methodist Church to-morrow night.

Bradley, who was twenty-one years old and married, lived in Newark, N. J.

Brighton Beach, N. Y., May 13.—Twelve racing automobiles, handled by twelve drivers for whom speed and sharp turns have no terrors, shot away on the over-motored road at 9:02 o'clock to-night in the first twenty-four-hour automobile race of the season hereabout.

Burman, driving Buick No. 2, was first to sweep around the mile track, in 1:13, closely followed by the other Buick entry. At the end of the first hour, Burman had negotiated fifty-six miles, equaling the Brighton Beach record made by a car of the same make last year. Buick No. 2 was second at the end of the first hour, and the Fiat entry third.

## CHURCH UNIONS NOT DESIRABLE

(Continued From First Page.)

George Braxton Taylor, of Hollins, were elected.

To-day was field day for Sunday school and home mission work. Among the speakers were Dr. E. C. Dargan, J. Taylor, Ellyson, Dr. Carter, Helm Jones, Rev. E. L. Grace, Dr. J. W. Porter, Dr. G. W. McDaniel and Dr. B. D. Gray.

Hundreds of delegates crowded down to the convention, and with their bundles and their babies, and this afternoon hundreds of the Baptist women made a pilgrimage to the same.

Perhaps the greatest address so far in the convention was that of Dr. J. H. Shakespeare, the delegate from the World's Alliance of Baptist. As representative of this organization Dr. Shakespeare had been able to rescue persecuted Baptists in Europe from prison and suffering. It is proposed by English and American Baptists to bring hundreds of poor and persecuted Baptists from Bulgaria, Hungary and Russia to the Baptist World Congress in Philadelphia next year. To this end a collection was taken in the convention this afternoon of \$4,000.

Whispered conversation ensued. Mr. Dixon clamored for recognition.

"I move that the Senate recess," he shouted, "until 4:30 o'clock." He appeared to have been successful, for a recess was met with cries of "No, no," but on a vote a large majority sustained the demand.

There followed a scene of great confusion such as rarely takes place in the Senate. Some declare it to have been unprecedented in recent years. Obviously, few people realized what the move meant. On every side there were cries that the unanimous consent agreement had been violated.

The city ambulance was called to treat him, and he was taken to the almshouse for treatment. From last reports he was doing rather well, although it is not expected that he will be able to appear to-day, his condition, it is thought, will not improve until the end of the week.

The white man claiming that he and the negro had no trouble, but were talking amicably, he with a knife in his hand whittled away at the negro's arm, and when others who saw the affair, although the negro's side of the question has not been heard.
